PROFESSIONAL SUMMARY

Backend-focused Full Stack Developer (MERN) and Subject Matter Expert with 5+ years of experience in Node.js, Express.js, MongoDB, REST API design, authentication/RBAC, and system architecture. Proven track record mentoring 500+ professionals and delivering 300+ technical training programs across Full-Stack Development, System Design, and Generative AI/Agentic AI. Skilled at architecture reviews, code quality audits, and translating complex engineering concepts into production-ready skills.

CORE SKILLS

- Backend: Node.js, Express.js, REST API Design, JWT Authentication, RBAC, Authorization, Middleware
- Frontend: React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3
- Database: MongoDB, Mongoose, MongoDB Atlas, Schema Design, Aggregation Pipelines
- Architecture & AI: Software Architecture, API Design, Scalable Systems, Generative AI, Agentic AI, Prompt Engineering
- Practice & Tools: Code Review, Technical Mentoring, Git, GitHub, Postman, AWS, Vite, CI/CD

PROFESSIONAL EXPERIENCE

Subject Matter Expert – Full Stack Development (MERN) **Jul 2026 – Present**

Entri, Coimbatore, India

- Lead technical mentoring and developer enablement across MERN development, system design, and software architecture for 100+ learners per cohort.
- Conduct architecture and code reviews on backend implementations and system designs, improving scalability, maintainability, and adherence to best practices across 50+ reviewed projects.
- Design and deliver curriculum covering Full-Stack Development, REST APIs, Generative AI, Agentic AI, and system design, achieving a 95% program completion/satisfaction rate.

Full Stack Mentor cum Developer – Gen AI & Agentic AI Platform **Feb 2025 – Jul 2026**

Entri, Coimbatore, India

- Mentored 150+ developers building AI-enhanced applications using React.js, Node.js, Express.js, MongoDB, and third-party AI APIs.
- Guided end-to-end API development, backend architecture design, debugging, and technical documentation for AI-assisted engineering workflows.

Full Stack Mentor cum Developer – Training Platform Engineering **Jun 2024 – Jan 2025**

iamNeo, Coimbatore, India

- Trained 50+ developers in JavaScript, React.js, Node.js, Express.js, MongoDB, and REST APIs; guided debugging, architecture decisions, and project implementation.

Full Stack Mentor – MERN Projects & Backend Systems **Apr 2023 – Jun 2024**

Edureka Learning Center, Chennai, India

- Mentored 100+ developers on MERN backend systems, API design, and databases; delivered technical sessions on JavaScript, React.js, Redux, Node.js, Express.js, MongoDB, and SQL.

Full Stack Trainer **Aug 2021 – Apr 2023**

Achariya Infotech, Kumbakonam, India

- Trained 50+ developers across JavaScript, Node.js, React.js, Redux, Express.js, MongoDB, and SQL, providing individualized feedback and debugging support.

PROJECT

Resume Evaluator — Internal Product | *React, Agentic AI*

- Led the initiative and drove requirements for an internal Resume Evaluator tool, identifying that learners lacked confidence to validate resumes and were disengaged from mock interview participation as a result.
- Defined evaluation criteria with mentors and learners and directed the build in React, delivering real-time feedback that drove a marked rise in mock interview participation and strong positive learner response.

AI-Powered Interview Preparation Platform | *MERN, JWT, Generative AI*

- Built a full-stack MERN platform with JWT authentication, protected routes, RBAC-based access control, AI-driven interview workflows, and real-time performance-tracking dashboards, supporting 50+ users.

EDUCATION

Bachelor of Computer Application (BCA) 2018 – 2021

Bharathidasan University (BDU), Tiruchirappalli

CERTIFICATIONS & RECOGNITION

AWS Certified Developer – Associate | Certified Node.js Developer II | Prompt Engineering

Entri Award of Honour — recognized for outstanding contribution to technical mentoring and program delivery.
